

LEASE MY BED

Your hotel bed for only 12 euros a month ...

Purchasing new high-quality mattresses and beds is a significant investment. That is why Revor group has developed a number of lease packages tailored to your budget and your hotel. And from as little as 12 euros a month!

The advantage of our lease package in a nutshell: During a 5-to-6-year lease contract, you and your guests can enjoy Revor Group's ergonomic products. After this, you are free to purchase the products definitively or have us replace the beds upon renewing your lease contract. Handy, isn't it?

How does our leasing work?

Simply choose one or more products from our lease packages, together with a lease term of 5 or 6 years. This ensures you will immediately receive a correct price per month, per bed or per room.

What happens once you've made your choice?

Your lease application will be approved or denied by our financial partner 'EB lease Europabank' within 2 days. If your lease is approved, you only need to confirm your order and we will deliver as soon as possible.

And what happens when your contract expires?

At the end of your 5 or 6-year lease contract, you either pay just a small residual value, which is determined by the contract duration. Or you place a new order by renewing your lease contract and we will come and replace the products.

Why is leasing interesting for your company?

- ✓ **You keep your working capital**
- ✓ **Easier financing**
Banks often require business plans, several years of banking history, and a perfect credit score. Leasing is an interesting solution for those with a limited financial history.
- ✓ **Keep your credit balance**
A lease agreement is separate from other sources of finance. It extends credit limits, giving access to more traditional sources if and when needed.
- ✓ **VAT advantages**
You don't need to pre-pay the VAT, which is included in the monthly lease instalment.
